

New awards for Sensimar Royal Blue Resort & Spa!

We are really proud to inform you that Sensimar Royal Blue Resort & Spa was awarded among all Sensimar Hotels & Resorts, with the **second (2nd) place** in the category "**Sensimar Service Award**" as well as the **third (3rd) place** in the general category "**Awards Sensimar**".

This award is particularly gratifying, as shown by the analysis of the results of Sensimar questionnaires, which were completed by clients during their stay at all the Sensimar hotels.

Such an award, whether from our visitors or professionals at the tourism industry, is a positive feedback to all the efforts and professional work from our staff and gives us the strength to try even more. The high level of service is always our goal and we will continue to work harder to this direction.

The **Management** of Sensimar Royal Blue would like to **thank the staff of Royal Blue Resort** and congratulate them for their high sense of responsibility and their professionalism, through out the whole touristic season.
